

INTRODUCING TAILORED GATHERINGS

Hit pause on the endless To Do's.

Take time out.

Gather with intention, outside the flow of work.

In a virtual or hybrid workplace, it's critical to build **deliberate opportunities and structures** for:

- Social connection- establishing and deepening them
- Re-energizing the team with levity, laughter and fun
- Learning + growing together
- Assessing what we are doing and how we are being as a team or organization
- Building + aligning on purpose, strategy and culture

All of these elements are interconnected and can be brought to life and reinforced by carefully designed experiences.

Pivot HR Services

You need a tailored gathering.

Often called **offsites or retreats**, we are reimagining the power and impact of these sessions in a virtual world, to build tighter bonds, empathy, and alignment; to fuel up for the times in between when collaboration, creativity, focus and hard-work must endure. We have never needed connection more – the time is now to engage with your team and revitalize your organization.

We work with leadership teams to tailor each event to the specific needs and goals of your company and culture. Here's a snapshot of our Tailored Gatherings design and execution services:

- Design session with the leadership team to uncover and refine purpose and desired outcomes
- Source potential add-on services (eg. gifts, prizes, special guests) and propose an agenda
- In-house expert facilitation of:
 - A variety of soft skill and/or leadership development sessions
 - Team-building activities
 - Strategic planning
 - Participative feedback and design sessions on culture, values or strategy
- Dynamic hosting, coordination and communications support

Tap into our deep expertise as People & Culture leaders, facilitators and coaches. Let our enthusiastic, warm and upbeat presence help revitalize and re-connect your team and organization. Connect with us to find out more about our unique approach to virtual retreats. Let's plan your next [Tailored Gathering](#).
